

Multilayer Fiber Interface Coatings for Improved Environmental Resistance and Slip in Ceramic Matrix Composites, Phase II

Completed Technology Project (2003 - 2016)

Primary U.S. Work Locations and Key Partners

Organizations Performing Work	Role	Type	Location
★ Marshall Space Flight Center (MSFC)	Lead Organization	NASA Center	Huntsville, Alabama
Ultramet	Supporting Organization	Industry	Pacoima, California

Primary U.S. Work Locations	
Alabama	California

Multilayer Fiber Interface Coatings for Improved Environmental Resistance and Slip in Ceramic Matrix Composites, Phase II

Organizational Responsibility

Responsible Mission Directorate:

Space Technology Mission Directorate (STMD)

Lead Center / Facility:

Marshall Space Flight Center (MSFC)

Responsible Program:

Small Business Innovation Research/Small Business Tech Transfer

Multilayer Fiber Interface Coatings for Improved Environmental Resistance and Slip in Ceramic Matrix Composites, Phase II

Completed Technology Project (2003 - 2016)

Project Management

Program Director:

Jason L Kessler

Program Manager:

Carlos Torrez

Technology Areas

Primary:

- TX06 Human Health, Life Support, and Habitation Systems
 - └ TX06.3 Human Health and Performance
 - └ TX06.3.5 Food Production, Processing, and Preservation
